

# **Bosch Crash Data Retrieval System Technician Course**

**April 21st and 22nd, 2020**

**8:00 am – 5:00 pm**

The Bosch CDR Technician course is a 2-day course providing training on the use of the Bosch Crash Data Retrieval system to collect electronic data from event data recorders installed in the vehicles of 19 automobile manufacturers. Attendees will be instructed on the hardware of the system to include the CDR interface module, CDR 900, CDR 500, adapters and cables. Attendees will be instructed in the most current version of the Bosch CDR software. All attendees will complete images of data from vehicles through the diagnostic link connector and directly to the module. All attendees will need to bring a laptop computer with an available USB port. Course materials will be distributed electronically via a thumb drive. Attendees are not required to provide a Bosch CDR System for the course.

**Register before February 24, 2020 and the fee is \$275.**

**After February 24, 2020 the fee is \$300 per person.**

**Colorado FOP State Lodge**
