

# *Trauma Care during Undercover Operations*™

Realistic Self/Buddy Rescue Training for Today's Undercover Operations

Rally Point Training Consulting's two day *Trauma Care during Undercover Operations*™ course brings our officer survival and training tenets to life for officers involved in undercover investigations with hands on and scenario based training to include:

- Officer Self/Buddy Care for Major Trauma
  - Bleeding Control Basics
  - Tourniquet Application
  - Wound Pressure/Wound Packing
- Officer Down Rescues
- Ballistic Confidence
- Tactics for Surviving Undercover Operations

This course is intended for officers/deputies/agents/investigators/detectives who are or will be involved in undercover operations including those involving the purchase of illegal drugs, stolen property, weapons, stolen vehicles and more. This course teaches undercover and plain clothes officers how to survive and treat major trauma when a deal, surveillance or other operation goes bad under realistic working conditions. This is not a basic UC Investigator course.

Participants will be required to work as part of a team to make operational plans, conduct surveillance, UC purchases and buy-busts in realistic circumstances. Course includes classroom and scenario training that includes inside and outside activity.

All participants will receive a North American Rescue Bleeding Control Training Kit (a \$47.66 value) including:

- 1 –Combat Application Tourniquet (C-A-T) Blue Training TQ
- 1 – 4 inch Responder Emergency Trauma Dressing (ETD)
- 1 – Combat Gauze Trainer
- 1 pair – Responder Nitrile Gloves
